Analysis

The data above is our “baseline”, simply because no data of this sort has ever been collected. Until the end of 2020, we do not have anything to compare this data to, We are left with individual interpretation.

My analysis is as follows:

Majority of the events:

- were witnessed by a single person
- had witnesses that did not mind having their personal information released
- occurred in Ontario Canada
- occurred during the evening between the hours of 6PM and Midnight
- occurred during the reporter's Adult years (24 to 65) during the time of the event
- were reported by those who identified as a female
- were reported as non-threatening
- were one time occurrences
- had some sort of evidence for review
- were physical events affecting the sight and touch senses

The above data suggests that a female between the ages of 24 to 65 from Ontario Canada, who is alone and doesn't mind having their personal information released, is more likely to experience a singular non-threatening paranormal experience between the hours of 6pm and Midnight, and will be able to have enough time, to capture or document some sort of evidence.

This data is biased due to the following:

- less than 1% of the world's population participated in this survey
- I live in Ontario Canada, and that is where majority of my marketing and reach is

As we expand into the future, our reach will include populations from other parts and cultures from around the world.

As a whole,

- it is observed that when people are alone they are more likely to pay attention to all that surrounds them. We tend to become easily distracted when in groups as our attention is focused on direct and deliberate stimulation as opposed to complete openness
- those who reveal themselves or personal information while discussing or reporting on the UFO and paranormal topics, create a less anxious and un-stressful environment which in turn suggests that a more open and relaxed mind could yield a stronger connection with consciousness and other elements of high strangeness
- the typical work day is from 9am to 5pm which may be the reason we are experiencing more events during the evening hours. Majority of us are home, relaxed, isolated and comfortable, tethering between awake and dream states
- Studies have suggested that our human brain is not fully developed until the approximate age of

25 and as we continue to mature, our brain will begin to shrink until it reaches approximately 60 years before it starts to deteriorate all together.

- Statistically, females participate in more relaxation and comfortable rituals such as meditation, yoga, prayer etc, where as the typical male tends to take on more aggressive rituals such as heavy lifting or construction projects. The possibility of being in a more relaxed environment more often, may suggest a higher probability of noticing and experiencing a paranormal event.

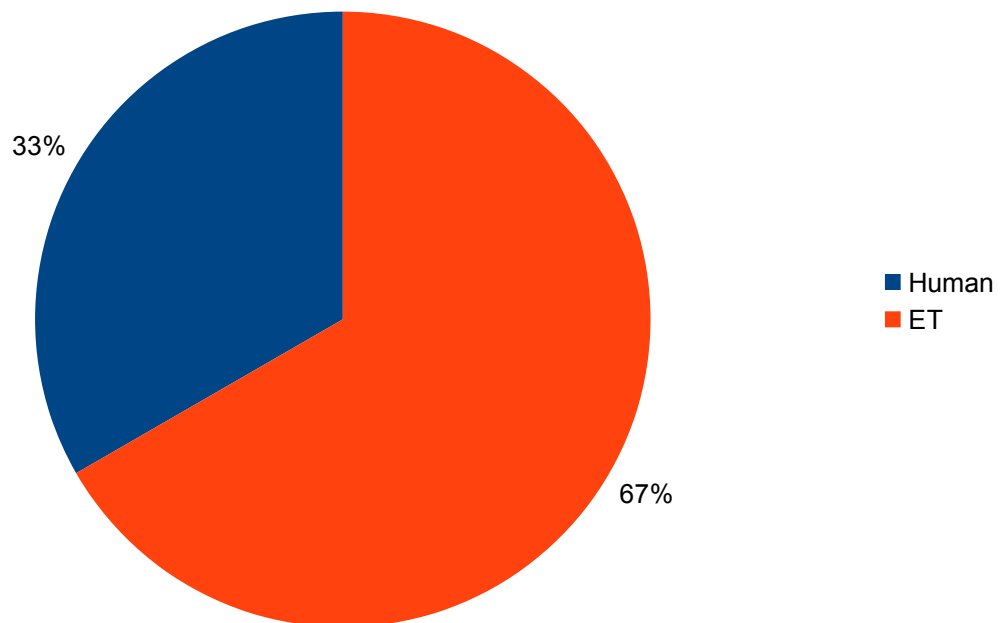

It is acknowledged and understood that these characteristics can apply to both male and female parties and in all walks of life, however for the purpose of supporting the data collected, I am seeing a large comparison between a relaxed mind and events of high strangeness.

With this analysis, I hypothesize that some, if not all, of these events of high strangeness, are connected through consciousness and require direct focus to observe and experience.

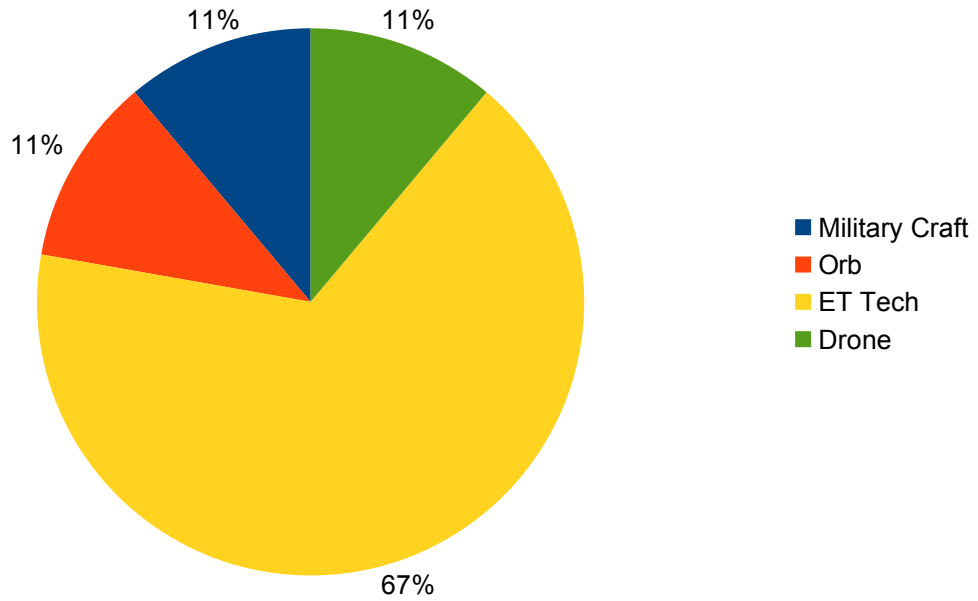

Perception of Events

To better understand the events reported it is important to understand that each human mind interprets an experience differently, and with this, it is essential to focus on the similarities.

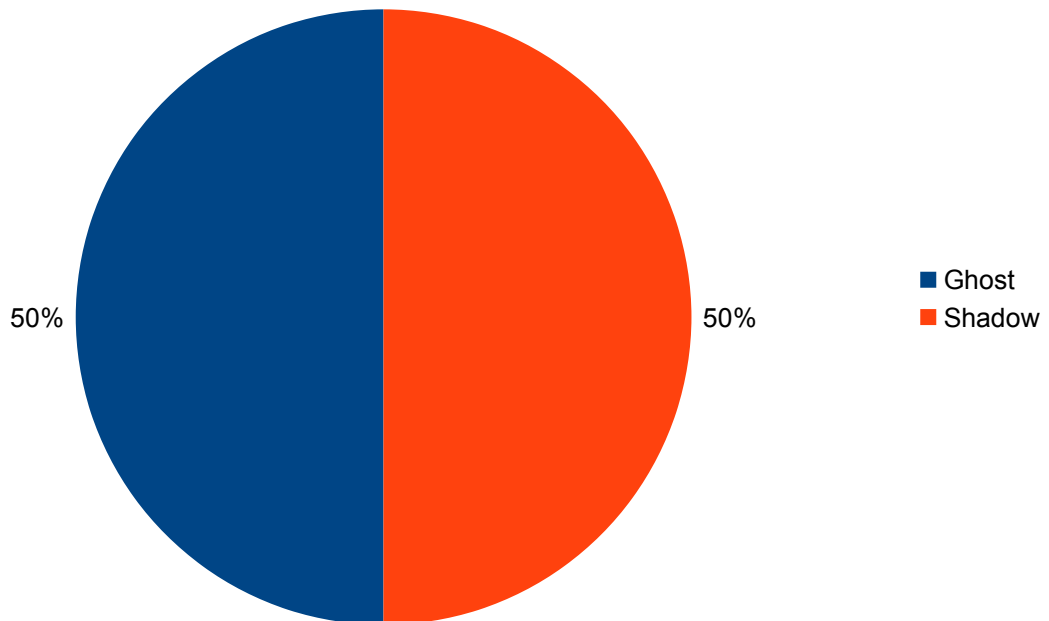

The following is a break down of some of the categories selected by those who reported:

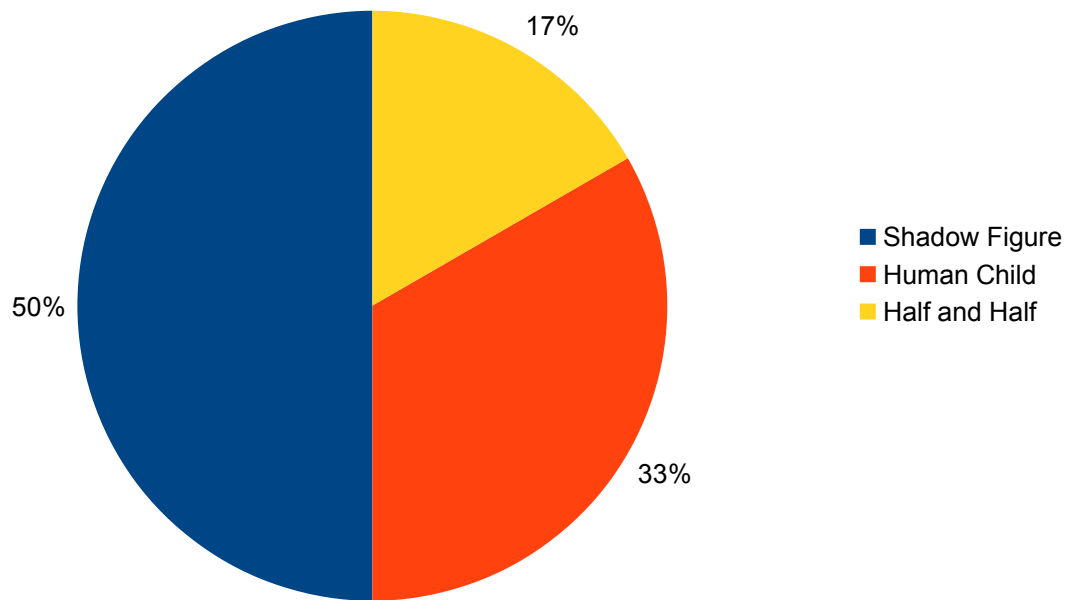

- 1 person described their captor during abduction as a human
- 2 people described their captor during abduction as an Extra-Terrestrial being.

- 1 of the people who reported Aerial Phenomenon believed the object to be Military Craft
- 1 of the people who reported Aerial Phenomenon believed the object to be an Spirit Orb
- 6 of the people who reported Aerial Phenomenon believed the object was Extra-Terrestrial technology
- 1 of the people who reported Aerial Phenomenon believed the object to be a conventional Drone

- 1 of the people who reported seeing an Apparition believed it to be a Ghost
- 1 of the people who reported seeing an Apparition believed it to be a Shadow

- 3 of the people who reported seeing an Entity described it as a Shadow Figure
- 2 of the people who reported seeing an Entity described it as a Human Child
- 1 of the people who reported seeing an Entity described it has Half Human and Half Something Else

Events Described By The Witness

The following are the events as described by the original experiencer. To protect the identity of the reporters, I have redacted specific identifiers:

HSPD20190003 – Abduction – Human

“As a child I was sleeping in my room, across from my closet. My parents would close the door to my room, while I used my room door to block my closet door. The closet door opened and there was a portal type hole, a man in a dark suit, it appeared to walk out. He told me to come with him for a few minutes. I felt I had no choice, nor did I scream or resist for some reason. I was taken to a base, where I heard someone say data mark and a number. I later found out I was the number. I ended up spending 23 years 4 months in space after my training in various bases. Honestly, I don't think I ever saw the actual sun until we all left the Planet, Earth Defence Forces Alaska Base. I went to the moon, then on Mars, I have an impression of Jupiter Station and seeing the platform in the rings of Saturn. I was told as a child I was a precog and that was why I was picked up. I spent some time out of the Galaxy Cygnus 5 for a while. I was returned to my home at almost the exact time and date they took me, after I did my 20 and home. Some people did not come home for various reasons. I learned how to drive off world vehicles on the moon. I have had dreams of places and combat that make little sense to me.”

HSPD20190005 – Astral Projection – Meditation

I had practised meditation daily, same time, same music with an alarm to indicate it was time to return. It started like any other one of my meditations. Next thing I remember I was moving around various places of the planet surface. This was nothing new to me, it actually happened a lot. I would be swimming in the ocean with whales; dolphins; sharks or flying or running the various places with the animals. I would sometimes sit or float depending. This time however, I started running and kept running getting faster and faster. I ran up the side of a mountain, I think it was K2 or Everest. Anyway when I hit the top, I leapt off and was floating in space. I was looking down on the planet, it was small in so many respects. Then I turned and I was flying past out past the planets, Jupiter moving faster and faster. I was outside our system picking up more speed. The next time I stopped I was looking back on the Milky Way Spiral Galaxy. It was so beautiful, I could not even perceive where our planet was. Then I turned again, flying. More galaxies sped past me in a blur, it was like street lights on a dark road when speeding faster than you should be. I wasn't, but sort of was in control if that makes sense. I felt I could have stopped if I wanted to, but being there was like being cradled in the arms of a mother as a child or a lover. When I stopped again I was beyond, that place beyond the edge of forever. It was warm comforting light. The colour was like a beige cream colour lit by a soft light that was everywhere yet had no distinguishing source. I knew everything, all the knowledge was there. Then maybe my alarm went off, because like a cord on a retractable wheel I was yanked back. Hurling back the way I had came. There was no slowing down, nothing. I slammed back into my body with such force that the chair I was sitting on tipped back against my bed. My body hurt through the bones for two or three days. Either the pain ebbed away or I got used to it. Since then I have not been able to replicate it.

HSPD20190006 – Extrasensory Perception – Recognition

It is hard to describe properly, but in the final analysis at the age of 98 I died in my home. Prior to that I was moving about my place doing various tasks, cleaning and cooking. I felt good, just old, and not really certain if I was alone. I passed peacefully I think, no trauma I can remember. I know when I woke up (from what was thought to be a dream) I was really depressed. I mean seriously depressed. It took me over two weeks to get rid of those feelings even though the result was brutal.

HSPD20190008 – Aerial Phenomenon – Extra-Terrestrial Technology

I wanted a picture of the barren cold runways. I held my cellphone against the window of the terminal to avoid any reflection and took a photo. I took a “selfie” after but due to the focus of the phone, the sky isn't visible behind me. After I got home to Vancouver, I looked at the photo and noticed an odd oval shaped cloud in the centre right. I zoomed in to see what appeared to be a disc shaped cloud, such as Alto-cumulus Lenticularis cloud formations. But they usually only go over hills, mountains, or very tall man made structures. Out of all the photos of Alto-cumulus Lenticularis clouds from the ground I could locate, not one of them shows the top of the formation such as mine. In my photo the formation is tilting towards me so I see the top of the disc shape. This was at a pretty decent altitude and over flat prairie. It was a cold clear morning with a ground temp of -39c Two contrails are visible in the foreground and appear much closer.

HSPD20190009 – Apparition - Ghost

Three different individuals experienced what is believed to be the same apparition. Myself, my mom, and my aunt, on three different occasions in the same house. My mom and my aunt saw the apparition in the same area (basement) on separate occasions. I saw the apparition in the same room next to my

childhood room (spare bedroom).

HSPD20190011 – Entity – Shadow Figure

I had been in bed laying awake when all of a sudden a shadowy dark entity appeared out of nowhere overlooking me from the foot of my bed. The dark figure paralyzed me in a fear-like state in which I couldn't find the energy to scream nor could I move a muscle. What felt like an eternity, only lasted 20 seconds and it vanished into thin air. I was too frightened to scream.

HSPD20190012 – Astral Projection – Sleep

I was at a facility, then I was taken on board a spacecraft, I was then in space. The spacecraft then travelled into what I believe was another dimension, I seen another Earth that looked just like ours. Something went wrong. I was then brought back through a pod like spacecraft that could only fit 2 individuals per pod. We were sent back to Earth through some form of inter-dimensional space travel.

HSPD20190014 – Orbs – Poly-Chrome

I will open my curtains and when the night is clear, I will sometimes look at the moon or the sky from bed. One time I saw the same object I seen the night before but now in a different place so I went and got my camera. I was amazed at how many different colours I was seeking, the shapes continuously changing. My significant other saw me and asked what I was doing. He also saw the object.

HSPD20190015 – Aerial Phenomenon – Military Craft

Driving my delivery truck to Lindsay on trans can Hwy 7 between Manila and Lindsay. Aircraft was descending in my direction. I pulled over on to the soft shoulder observe the aircraft believing it to be a 747 freighter plane. I sometimes observed aircraft during my deliveries and watched them. This was a clear moonlight night with very few clouds. I was intrigued by the descending aircraft so far away from Pearson Int Airport. The aircraft was showing no marker flashing strobes on wings. As the aircraft became more visible I began to notice its outline, it was still descending slowly at a shallow angle. The wingspan was very wide with a slight pronounced middle bump, I assumed to be the cockpit area. At approx 1000 feet the aircraft began to level out and changed its direction slightly. The landing lights dimmed. At approx 12 mph the aircraft flew past me, to the left of the truck at approx 500 ft. The aircraft was a perfect diamond shape. Black with a dull white light in each corner of the diamond. Along the centre line but just behind the middle of the aircraft a red revolving light turned slowly. It reminded me of an old police car revolving red lights. No engine noise heard or observed. The aircraft began to change direction slightly moving west north west and slightly increased speed and began to climb higher and higher. A long thin cloud was behind me and the aircraft flew into it, the cloud glowed white as the aircraft entered it and dimmed as it passed through it. I watched the aircraft pass into the distance until it disappeared into the black night sky.

HSPD201900017 – Aerial Phenomenon – Orb

Walking along with my friend name redacted along Myrtle Street with unknown elderly gentle man some short distance in front of us. Approx 7pm a dull orange/red ball of light appeared from our left above the rooftops moving at a fast walking pace. It crossed our path and carried on at rooftop height moving east south east. The elderly gentleman stumbled as he looked up at the ball of light. The

object disappeared out of sight over the rooftops.

HSPD201900020 – Unusual or Paranormal Activity – Sensation

I have a small circular cut or abrasion on the top bridge of my right foot. Then I have 4 horizontal scratches on the back of my right ankle. I noticed I have two or more circular cuts or abrasions on the inside of my right ankle. My wife has two similar circular cuts on the inside of her left ankle that appear to be exactly the same.

HSPD201900025 – Entity – Shadow Figure

I was in bed, just went to sleep. I had just finished watching Sonny and Cher on the TV. I was drifting off to sleep. I turned over. I opened my eyes and I saw Sonny and Cher on the TV. I opened my eyes wider and I saw a figure standing in front of me alongside my bed. Looking down on me. I went into cold sweats. I wanted to get out of bed but I couldn't. I felt held down even though I wasn't touched. I stood up on the bed. The entity put its arm out with its hand open and pushed towards me. Immediately after I was pushed to the corner of the room where I was held. He dragged me across the wall. I was screaming and kicking for NAME REDACTED, and then laid me on my back. He never touched me during this experience. I was shoved against the headboard and held there. I felt cold pain in the back of my head into my spine throughout my body. It pulled its hand back and the pressure and pain went away. The next thing I remember is waking up and going to work feeling refreshed as if I had 8 hours of sleep.

HSPD201900027 – Abduction – Extra-Terrestrial

I remember as a child at the age of 3 I used to live in REDACTED. In a large field in the back of our home I remember seeing a sphere moving to the left. It at first looked like the sun. It started moving closer to me. As it did the colour changed from orange to having a black outline around it. It had lights going around it. When it came down closer to me it was like a metallic bronze colour with a reflective smooth surface. I only seen this as a child during the night. I remember them coming into my room. I could always feel when they were coming. The wall where they came from would turn black like there was no wall there. I remember how my room felt cooler as well. They had a small mouth, are 3 and a half feet tall and grey in colour. They had no hair. Large black eyes. Flat nosed and 4 fingers. I am awake at this time standing up. They would paralyze me and lift me up and float me out of the room the same way they came in. There's nights I would have nightmares and intrusive memories about this. Some times I would hear thumping and banging them scratching before I see them. I still have these experiences today.

HSPD201900028 – Aerial Phenomenon – Extra-Terrestrial Technology

After celebrating New Year's Day, I remember finishing up the dishes, and putting everything away, having tea. When I washed my cup, I looked up at the sky, as I usually do every night, and I saw this UFO from far North and it was slowly descending towards fir trees in the distance. It's speed was extremely slow and it was going down in a stairs shaped pattern. This lasted 2 hours. Then it disappeared behind the trees. UFO was shaped like an elongated oval shape with red and white lights. I came back the next night and the same time and again I witnessed the whole incident. On both nights the sky was clear. On the second day the object disappeared behind the trees then reappeared coming out of the opposite direction and flew extremely close to the house and in a flash disappeared again. It

was pitch dark that night, and when it flew by it lit up the whole sky.

HSPD20190029 – Astral Projection – Sleep

Found myself in full darkness moving through the sky. I could see a light in the distance and started zooming in. I felt like I was standing and was not alone. I could see clouds, and dim lights getting closer. I thought “its like a living map” I think I am remote viewing the Moon. But what I see what looks like the city lights at night. Then everything goes black. I woke up and wrote down what I saw.

HSPD20190030 – Aerial Phenomenon – Extra-Terrestrial Technology

I went out a smoke. Was staying at a cabin in the bush, by myself. I was leaning back looking at the stars. A star started moving in a zig zag pattern, but not in a row. A jet plane was coming from the east and flew by. I then looked back up and the star zigzagged back to where it started. I am freaked out and looked around and saw a 6 or 7 star constellation in the shape of an arrow, then I hear 'crunch' 'crunch' in a bush. Might be a moose. Out of the bush comes out an eagle.

HSPD20190031 – Entity – Human Child

I was laying down, and I could see a young female, sitting on something close to my head. I looked at her knowing how strange she looked. I can only describe her as a “pixy-girl”. Straw like short, dirty blond hair, and crabby pyjama like clothes. He elbows on her knees, and her head in her hands. I said “What do you want?” She quickly looked at me, and all I saw were eyes, coming towards me, out, black.

HSPD20190032 – Entity – Human Child

Found myself looking at a roughly 12 year old boy. I felt as if I was laying down. He was staring at my mid section. I felt like I had not clothes on. I was studying his face. A bit strange. Huge round black eyes. I said “what do you want?” He snapped his heads towards me, and all I saw were these black eyes getting closer. I'm out, black.

HSPD20190033 – Aerial Phenomenon – Extra Terrestrial Technology

5 of us were walking up the street, when I noticed a large, low object in the sky, right above my house and my neighbours to each side. It was dark out, and I could see a row of lit up windows, of different colours. I asked “Did anyone else see that?” They said, “See what?”

HSPD20190034 – Entity – Half Human – Half Something Else

At first (when) he appeared, I thought he was an extra terrestrial from Venus until his arms became wings and he put his wings around the person I was working on in the room. He said his name was Michael. He was 7 feet tall and is an Archangel. After this he came back this way 2 or 3 more times and each event was taped and eventually we wrote a screenplay about the experiences. He stood over the TV inside what looked like a portal.

HSPD20190038 – Aerial Phenomenon – Drone

It was orange. Not like the sun on most days. It had a halo effect, like an aura around it. It had a balloon like controlled movement. It was not normal behaviour for an airplane. The object moved in right angles in rapid speeds but in a playful way meeting up with a second object of its kind. It resembled a laser light playfully moving on a wall. A third one appeared out of nowhere out of the forest area and in front of the two others and within a blink of an eye they shot out and disappeared in the south.

HSPD20190040 – Aerial Phenomenon – Orb

I was letting my brother's dog out to use the washroom and noticed 3 planes flying in opposite directions under the bright moonlight, which was odd. We barely ever had planes flying in our section of southern Ontario. This when I noticed something in the corner of my eye. It was a disc shaped ship. I saw it above one of the apple trees in the backyard. It was in a shadowed part of my neighbours farm field hovering. I had red and white lights going round and round the belly or centre of the craft. I notice the trees blowing in the wind and this thing didn't move. I'm assuming it was large and close to the barn with cows. It lasted about ten minutes then I watched it vanish. Very soon after I saw two military planes flying above us south west headed and a black helicopter. I was scared and went inside.

HSPD20190041 – Cryptid – Reptile

I had gone to bed late in the evening. Everything was fine until I woke up. I was paralyzed from the neck down which was scary and my head was laying to the left. First thing I noticed was my bedroom light was on, the second thing I noticed, the dog was not barking or around at all and usually when everyone is awake, so is the dog. I could feel that my body was moving because my head was. I knew the bed was moving so I forced my head to move up and came face to face with a reptile or snake man. I assumed it was a man because it was having sex with me. I immediately went into survival mode and assessed the situation. The being gave me a soft blink in its glance and in that moment. I knew I was not going to be hurt. I woke up in the morning freaking out. I had to lie to my brother because he would not have believed me or thought it was a dream or I was crazy. The being had a hard helmet on its head and I am not sure if the plate-like top was a helmet or was just its head. It had established horn nubs on it but they did not look like they were new horns just surfacing from the skin. The hard part of the head came down to the tip of the nose. The eyes were brown and large. Not your typical oval shape. They were round and large. I am certain that the being paralyze me. The body was scaled but it was more like scaled skin not snake scales.

HSPD20190042 – Orbs – Mono Chrome

I went to let the dog out and noticed that there were many orange lights in the field next to my house. I live between two cow farms owned by the same family. I noticed the lights moving around fast and assumed at first it was 4 wheelers or quads because the lights were higher in the air and not ground level. I watched them move around and heard some sounds but then I started to see orange orbs moving above the tree line that lined our property.

HSPD20190043 – Abduction – Extra-Terrestrial

My husband being in the Military, once in awhile he would be gone for 6 months overseas. One time he went away, in the morning I wake up with bruises on my legs more than usual they be on the same spot on each leg. My husband was worried concerned how I was getting these. When he left things

turned for the worst. I remember I would wake up and sense that the Ets are coming. Not a comfortable feeling. The room turns dark and feels cooler the wall pitch black where the greys came through they go around my bed. I can still move at this time. One pulls off my sheets. I am looking into his large black eyes. They step aside then I'm paralyzed and can't move. I feel myself floating up and going through the black wall they came in. I wake up in the morning. I feel a burning on my right knee. I touch it. It feels like my skin came off. Painful. I sat up to look at it. I was shocked to see that my entire knee was black from a burn with a small cut like something sharp gone through the joint of my knee with dried blood on it. My other knee had the same thing. It was painful. I had brown burns on my the outside of my arms over my elbows. I had small black bruises on the middle inside of my legs. I also had 3 small black bruises on the upper inside of my legs. I get up feeling sick to my stomach, weak and hot. My throat was dry. I had no appetite. I thought I was going to die. This has happened to me 5 times during the 6 months my husband was away.

HSPD20190045 – Aerial Phenomenon – Extra-Terrestrial Technology

I was watching this purplish object moving around when star like objects smaller than the one I was observing, appeared in the sky around this object. One appeared top right, then another top left and then a third bottom centred between the two above. I got the impression that the object I was originally observing was trapped somehow. The object would thrust hard and fast and appear to bounce back in various directions. After 5 minutes the trapped object flashed and then shot out a comet which had a tail. 3 orbs/stars were still there.

HSPD20190046 – Apparition – Shadow

I was in my bedroom and I just put out the lights a few minutes before to sleep, when I felt I was being watched. The feeling was extremely intense, where I felt my body heat rise. I wasn't sick this night and I had no fever. Then when I sat up gasping for air, because the intensity felt like something heavy sitting on my chest. I got out of bed and turned the lights back on, that's when I saw three shadows with red eyes looking back at me. I hid back under my covers, and I kept saying over and over, "you are not real". Then I looked up again and they were floating closer towards me. Then I covered myself again and then said the same thing again. Then I looked again and they were so close to me. My whole room's temperature dropped and it was freezing then it went back up to boiling and then back down again. It kept doing that throughout the whole experience. They started circling me and a fourth shadow with red eyes came out from the middle of the third one. When their hands touched my skin they allowed me to see how they died. They said "We are real. This is only the beginning"

HSPD20190050 – Entity – Shadow Figure

I was speaking with my partner who was in the other room. I was preparing to take a shower, as I am holding the door to the washroom, I see this large figure approximately 5'11 – 6" tall standing approximately 5 feet away from me. It has no visible face, just an outline of a humanoid figure. It was solid and had fat features with no neck visible but I could see arms and legs. When I blinked or looked away it vanished.

HSPD20190056 – Unusual or Paranormal Activity – Sound

I was laying in bed observing the stars and other objects. Just beginning to close my eyes, when I heard

a ringing sound in my ear. I opened my eyes and shortly afterward I observed a light (orb) come into view. It stopped suddenly for about 30 seconds and then continued on its way. It emitted white light and I could not hear any sound.

HSPD20190057 – Orbs – Dual Tone

I was awake and this red orb appears out of nowhere, then it moves down and East like a downward bell curve. The object then vanishes in a manner which I would describe as a fade effect. Then to the west side (right) there's a white orb that appears out of nowhere. The object got really bright, flickered a bit then vanished in spot, like it got vacuum sucked into the sky.

Every case listed above has been fully investigated and numerous pieces of evidence have been obtained by the witness including drawings, photos, video and regression sessions.

CONCLUSION

This is a small sample, however less is more. The overall goal is to compare as much data as we can to other accounts in order for us to collectively understand how many of these phenomena play in part with one another. It is my personal opinion that many events, possibly all, are connected or at least play a part with each other. I will continue to analyze all data that is reported to TESA and with every effort, try to show that measuring all things of high strangeness is more beneficial than measuring one end or the other. Please continue to report your events at www.tesacan.org/reportingsystem
